Key Features:

- State-of-the-Art AI Trading Bots
- Transparent and Secure Trading Environment
- Tradex24 Ecosystem: Learn how our token Trade Coin (TRDC) grows with our success

4. Re-buying Mechanism:

Learn about our algorithmic approach to re-buying, ensuring a sustainable and growing ecosystem. Find out how token burns contribute to scarcity and potential value appreciation.

4.1 Algorithmic Approach: Trade Coin employs a sophisticated algorithmic approach to determine optimal re-buying opportunities. The algorithm takes into account various factors, including market conditions, trading performance, and liquidity. Smart algorithms identify optimal re-buying opportunities.

4.2 Token Burn: To maintain a healthy balance, a percentage of Trade Coin profits is used to buy back and burn tokens periodically. Token burning reduces the circulating supply, contributing to potential increases in token value. Profits are used to buy back and burn tokens periodically, reducing the circulating supply.

5. Governance and Voting:

Trade Coin holders will have the opportunity to participate in governance decisions. Proposals related to the allocation of trading profits, adjustments to the re-buying algorithm, and other key decisions will be subject to a community vote. Trade Coin holders participate in governance decisions through voting on proposals related to trading profits, algorithm adjustments, and other key decisions.

As a TRDC holder, understand your role in the governance of the ecosystem. Participate in votes that shape the future of TRDC and Tradex24.
